

CORVUS[®]

APPLICATION GUIDELINES

Corvus[®] pre-emergence corn herbicide is the ONLY herbicide to offer 3 levels of defense: burndown, residual and reactivation—for consistent performance all season long.

- Corvus[®] delivers rapid burndown to take out early weeds, long-lasting residual to prevent new weeds and reactivation with rain to get late weeds.
- With its two modes of action, Corvus controls more than 65 grass and broadleaf weeds.
- Just a half inch or more of rain reactivates Corvus and boosts its weed control properties.
- Because of its low use rate, Corvus can be applied in ounces vs. pints or quarts per acre required by other herbicides.

How to Spray

Rate	3.33 to 5.6 fl oz/A depending on soil type
Timing	<ul style="list-style-type: none">• Preplant (surface-applied or incorporated) through 30 days prior to planting• Pre-emergence and pre-emergence burndown• Early postemergence through V2 corn
Group Numbers*	 
Adjuvants	<ul style="list-style-type: none">• Crop Oil Concentrate (COC) or Methylated Seed Oil (MSO) recommended for burndown of weeds 6 inches or less in height• Do not use COC or MSO for post applications
Tankmix Partners**	<ul style="list-style-type: none">• DiFlexx[®] herbicide• Atrazine (pre- or postemergence)• Glyphosate (pre-emergence)• Liberty[®] herbicide

*For more information on herbicide group numbers and site-of-action options, visit IWillTakeAction.com

**See Corvus label for full listing of tankmix partners.

Corvus is labeled to control more than 65 grass and broadleaf weeds, including foxtail, common ragweed, waterhemp and other weeds exhibiting resistance to glyphosate, PPO, triazine and ALS herbicides.

Grass Weeds Controlled

Barnyardgrass	Millet, browntop
Crabgrass, large	Millet, wild proso
Crabgrass, smooth	Oat, tame
Cupgrass, woolly ¹	Oat, wild
Foxtail, bristly	Panicum, fall
Foxtail, giant	Panicum, Texas ²
Foxtail, green	Sandbur, field ²
Foxtail, robust purple	Shattercane ¹
Foxtail, robust white	Signalgrass, broadleaf
Foxtail, yellow	Witchgrass ¹
Goosegrass	
Johnsongrass, seedling	

Broadleaf Weeds Controlled

Amaranth, Palmer	Pennycress, field
Buffalobur	Pepperweed, Virginia
Burcucumber ²	Pigweed, prostrate
Buttercup, smallflower	Pigweed, redroot
Carpetweed	Pigweed, smooth
Chamomile spp.	Pigweed, tumble
Chickweed, common	Plantain, broadleaf
Cocklebur ^{2,3,4}	Puncturevine, common
Copperleaf, hophornbeam	Purslane, common
Dandelion, seedling	Radish, wild
Deadnettle, purple	Ragweed, common
Galinsoga	Ragweed, giant ^{2,3,4}
Henbit	Sesbania, hemp
Jimsonweed	Sida, prickly
Kochia	Shepherdspurse
Lambsquarters, common	Smartweed, ladysthumb
Mallow, Venice	Smartweed, Pennsylvania
Marestail	Spurge, toothed
Morningglory, annual ^{2,3,4}	Sunflower, wild ^{2,3,4}
Mustard, wild	Thistle, Russian
Nightshade, black	Velvetleaf
Nightshade, Eastern black	Waterhemp, common
Nightshade, hairy	Waterhemp, tall

¹May require an appropriate sequential postemergence herbicide treatment for control of late-season escapes.

²Partial control.

³Control of these weeds can be gained with the addition of an appropriate rate of atrazine.

⁴These weeds may require a postemergence application of Laudis®, DiFlexx®, Buctril® or other appropriate postemergence herbicide.
