HARNNESS[®]
MAX

Take Control of Your Corn Acres

Harness[®] MAX herbicide is a convenient, easy to use pre-mix that contains acetochlor and mesotrione.

This product offers the excellent residual benefits of Harness[®] herbicide with the added postemergence and residual activity of mesotrione for a broadened range of control against tough-to-control weeds in corn. Harness MAX has a flexible application window including preplant, pre-emergence, and early postemergence in corn up to 11 inches.

/// BENEFITS

- **Convenient Pre-mix**
A convenient pre-mix herbicide of mesotrione and acetochlor
- **Resistance Management**
Multiple sites of action for strengthened residual control and the added benefit of postemergence control
- **Application Flexibility**
Flexible application window including preplant, preemergence and early postemergence in corn up to 11 inches
