

Bayer SeedGrowth™ Quick Guide

Products for Cereals

Category	Product	Active Ingredient(s)	Crop	Rate (fl. oz./cwt.)	Efficacy and Comments
INSECTS	Gaucho 600	Imidacloprid	Barley, millet, oats, rye, sorghum, triticale and wheat	0.13–2.4	<ul style="list-style-type: none"> Provides early-season protection from pests (including aphids, Hessian flies, wireworms and grasshoppers) that can cause economic loss Proven seed treatment insecticide that can be used with EverGol® Energy and Raxil® Pro MD Can be mixed with other Bayer SeedGrowth™ products Convenient low-use rate
INSECTS & DISEASES	Gaucho xt	Tebuconazole, metalaxyl, imidacloprid	Barley, millet, oats, rye and wheat	3.4–4.5	<ul style="list-style-type: none"> Proven, low dose, all-in-one systemic seed-applied insecticide + fungicide Broad-spectrum disease package with the benefit of two fungicides for early-season protection against Rhizoctonia, Pythium, Fusarium, root rots, smuts and early-season suppression of Powdery mildew and Leaf rusts Plant protectant delivering long-lasting insecticidal protection that moves within plant tissues and protects against damage caused by aphids, wireworms and early-season Hessian flies Early-season control of aphid species, such as those that vector barley yellow dwarf virus; length of protection dependent on factors such as temperature, moisture, planting depth, seeding rate, date of planting and speed of plant growth. Disease activity similar to Raxil Pro MD; contains 0.8 oz./cwt. Gaucho® 600 Additional Gaucho 600 may be needed under heavy wireworm pressure
DISEASES	EverGol Energy	Penflufen, prothioconazole, metalaxyl	Barley, buckwheat, millet, oats, rye, triticale and wheat	1.0	<ul style="list-style-type: none"> Combination of fungicides incorporating a complementary mode of action that fits growers' seed protection needs Promotes consistent, fast crop establishment; treated plants emerge quicker, grow faster, resulting in improved, uniform stands Protects seedlings from stand-damaging diseases such as <i>Rhizoctonia solani</i>, <i>Fusarium</i> spp. and <i>Pythium</i> spp. as well as smuts Protects for higher yields through better final crop establishment; high-performance disease protection combined with improved vigor and consistently strong stand establishment play a role in maximizing grower's potential for optimum returns Joint registrations in Canada and the U.S. for ease of treated seed flow across borders
	Raxil PRO MD	Prothioconazole, tebuconazole, metalaxyl	Barley, oats, triticale and wheat	5.0–7.5	<ul style="list-style-type: none"> Aids in the control or suppression of seed, seedling and soil-borne diseases including early-season Rhizoctonia root rot, common root rot, Pythium, seed-borne Fusarium scab, barley stripe, common bunt and smuts (stinking smut, flag smut, loose smut) Fungicide only, add insecticide as needed
	Raxil PRO SHIELD	Imidacloprid, prothioconazole, metalaxyl, tebuconazole	Barley, triticale and wheat	5.0	<ul style="list-style-type: none"> Delivers a high-rate insecticide coupled with a fungicide for more complete, early-season stress prevention Ready-to-use, all-in-one formulation designed for on-farm and commercial applications Enables plants to focus on growth for better root establishment, improved vigor and increased yield potential
STORED GRAIN	Sensat®	Spinosad	Barley, millet, oats, sorghum, triticale and wheat	<ul style="list-style-type: none"> 5.9–10.5 oz./1,000 bu. Dilute Sensat® with 5 gal. of water 	<ul style="list-style-type: none"> Prevents infestations of key pests; eliminates existing ones Effective on pests that have developed resistance to other stored grain insecticides Allows for treated grain to be used immediately for feed, food and oil
